## INSTRUCTIONS FOR ORDERING

### WHEN ORDERING:

Each variety ordered must be in multiples of 25.

### PRICES:

	Regular Varieties	Special and Newer Varieties marked with (*)
100 to 475 cuttings.....	\$ 5.00 per 100	\$ 6.00 per 100
500 to 975 cuttings.....	4.00 per 100	5.50 per 100
1000 or more cuttings.....	35.00 per 1000	50.00 per 1000

**DISCOUNTS:** 5% Discount for all CASH WITH ORDER orders.

2% Discount if Charge Orders are paid WITHIN 10 DAYS from date of Invoice.

**TERMS:** ALL CHARGE ORDERS will become due in 30 days from date of Invoice. Cash to all customers without established credit—at least 50% of the amount must be enclosed with your order if you want us to send it C.O.D. This part payment is necessary because of the perishable nature of the cuttings. If the shipment is refused for any reason it is usually a total loss.

**DELIVERY:** All shipments will be made by Express collect. F.O.B. Geneva, N. Y. They are automatically insured.

**CLAIMS FOR DAMAGE:** If plants are damaged upon arrival, NOTIFY YOUR EXPRESS AGENT IMMEDIATELY. Get a BAD ORDER REPORT made out and signed by him. If this is done, your claim will receive prompt attention. You may file the claim direct, or if you prefer, mail us the bad order report, invoice and express receipt, and we will file claim for you. Our packing is all done by men of experience who have done it for years and any trouble must be settled with the carrier. However, we will do all we can to assist you.

**NO GUARANTEE:** While we use every possible care to have all varieties properly labeled and true to name, we give no warranty expressed or implied, also we cannot guarantee a crop as growing depends entirely upon the grower.

**CANCELLATION:** Must reach our office before shipment has been made. However, if all or any part of your order has been shipped, we can cancel the **UNSHIPPED PORTION** only.

**CARE OF CUTTINGS WHEN RECEIVED:** We pack rather dry purposely to avoid rot. If your cuttings seem wilty remove wrappers and dip them tops and all in cool water and set the roots loosely in a flat of damp moss for a few hours, or over night, out of doors in the shade or under a cool bench where the wind does not blow on them. If you do this you will find they will revive 100% and then are ready to pot or transplant. **NEVER POT A WILTY PLANT.** You may need to shade some according to the weather. A little wilting after potting will not harm and a light syringing occasionally will help very much. If cuttings are crisp the morning after 24 hours from potting this shows they are taking water and your danger from shipping is over.

Orders accepted will be subject to the above terms.
